## New COORDINATE SYSTEM

The new coordinate system is properly cartesian. First # is to right of earth on map if its positive, to left if negative. Second is vertical axis - positive up, negative down. All distances are in light-years.

Locations:	X	Y	DIST
Barnard's Star	0	+6	6
Sirius	-7	+4	8.1
Proxima Centauri+4	0	4	4
Polaris	+4	-4	5.7
Vega	-12	-21	24.2

POLARIS is ruled by the Soceinor (invented term, from Robert Sosin's last name)

POLARIS and BARNARD's STAR are allies
